Message from President of CNS

Dear Colleagues and Friends:

Welcome to the 11th Asia Pacific Conference on Clinical Nutrition (11th APCCN) and the 14th China Nutrition Science Congress (14th CNSC). The Chinese Nutrition Society is honored to co-host the 11th APCCN with the Asia Pacific Clinical Nutrition Society. The conference theme will be “From Nutrition Research to Clinical Practice” with aim of presenting the latest development of nutrition science and practices, and promoting academic exchange among nutrition researchers and practitioners across the world.

It is our hope that the conference will be a melting pot of mind, where we share knowledge and experiences and make new professional connections. Our main goal is to offer you a high-level meeting focused on clinical nutrition as well as key aspect of nutrition issues going through a wide variety of topics, from state-of-the-art reviews to cutting edge nutritional science information. See you soon in Nanjing!

A handwritten signature in black ink, appearing to read 'Yuexin Yang'.

Prof. Yuexin Yang

President of the Chinese Nutrition Society (CNS)

Asia Pacific Clinical Nutrition Society

APCNS is an affiliated body of the International Union of Nutritional Sciences (IUNS), established in 1981, Australia. Possible activities of Asia Pacific Clinical Nutrition Society (APCNS) may include, but not be limited to, the following:

- 1) Promoting the education and training of clinical nutritionists and dietitians in the region.
- 2) Enhancing the practice of human nutrition and related disciplines in their application to health and the prevention of disease.
- 3) Providing a network of people who practice scientifically based clinical nutrition.
- 4) Curriculum development which will contribute to the academic and professional development (dietitians and nutritionists) of the Asia Pacific region.
- 5) Developing regional working parties to achieve standardization in nutrition assessment methodology, protocols for clinical management, ethical standards, and policies for practice.
- 6) Organizing regular scientific meetings in the Asia Pacific region including the "Asia Pacific Conference on Clinical Nutrition".
- 7) Exchange of teaching, research, administrative and professional personnel relating to clinical nutrition.
- 8) Communicating advanced clinical nutrition research via the APCNS official journal "Asia Pacific Journal of Clinical Nutrition".
- 9) Stimulating scientific inquiry into nutrition in medical practice in all of its dimensions, including preventive and management of diseases.

Chinese Nutrition Society

The Chinese Nutrition Society (CNS), founded in 1945, is a national-wide, non-profit academic organization dedicated to bring together nutrition experts and professionals to advance nutrition science and support the dissemination and application of nutrition to improve public health in

China and the world. Currently, CNS has over 28,000 members in 31 provincial branches across China including academics, nutritionists, clinicians and dietitians, health workers, educators and students. CNS is composed of the Board of Directors, the Executive Council and the Council, in which CNS also supervises 14 Working Committees and 19 Academic Committees. CNS joined the International Union of Nutrition Societies in 1984, and became the member of Federation of Asian Nutrition Societies in 1985. CNS set up the Chinese Dietary Guidelines in 1989 and revise it every ten years, released the Chinese Dietary Reference Intakes since 1938. The mission of CNS is:

- 1) To bring researchers and scientific workers together in the advances of educational and nutritional sciences
- 2) To further develop in nutrition science and technology with the food industry and dietary practices
- 3) To support the dissemination and application of nutrition knowledge to improve public health and clinical practices
- 4) To promote nutritional policies and increase national professionalism

Program

APCCN 2019 Main Content:

 Clinical Nutrition: latest development of clinical nutrition, diabetics and nutrition, cancer and nutrition, cardiovascular diseases and nutrition, enteral and parenteral nutrition, etc.

More Symposia in CNSC 2019:

 Nutrition and Metabolism: micronutrients and health, intestinal microorganisms and nutrition, etc.

 Human Nutrition: maternal and child nutrition, nutrition and ageing,

 Public Health and Nutrition: obesity and nutrition, nutrition and epidemic disease, nutrition and chronic disease control, nutrition policy and economics, etc.

 Food and Health: medical foods and nutrition support, nutrition and new food technologies, nutrition and supplements, probiotics and prebiotics, etc.

 Nutrition Technology and Application: new technologies and applications of bioactive substance, nutrigenomics, nutrition information and big data, nutrition and smart elderly care industry, health and rehabilitation, nutrition and translational medicine, etc.

 Young professions forum: career planning, start-up show, selected paper exchanges, etc.

Call for Abstracts

The 11th Asia Pacific Conference on Clinical Nutrition (2019) invites the submission of abstracts for original work. Abstracts will be considered for oral or poster presentations in the APCCN 2019 Program.

APCCN 2019 Program Themes:

Clinical Nutrition: latest development of clinical nutrition, diabetics and nutrition, cancer and nutrition, cardiovascular diseases and nutrition, enteral and parenteral nutrition, etc.

Key Dates

1 st November 2018	Call for Abstracts Open
30 June 2019	Abstract Submission Deadline

Young Investigator Award

As part of our social outreach program at the 11th Asia Pacific Conference on Clinical Nutrition (2019), we are proud to open applications for our Young Investigator Award. All master/doctor students and those graduated in 3 years (after September 2016) are encouraged to apply this award while submitting abstracts. This award is to be given to a young researcher who has exhibited a record of excellent original work and significant results in the field of clinical nutrition. The recipient should have shown significant research in the early stages of his/her career.

About Nanjing—Charming Nanjing, the Magnificent City

Nanjing is the capital of Jiangsu Province in East China, running through the city are lower reaches of the Yangtze River whose estuary is not far away. Nanjing was founded 2500 years ago and has enjoyed a civilization since then. Enclosed by mountains and rivers, and located in a strategic place, it boasts picturesque scenery that blends natural landscape with towering modern buildings, integrating traditional styles with modern civilization. Thus it was known as a unique historic and cultural city to the world.

A historic city

As one of the Four Ancient Capitals, Nanjing is a vital cradle of Chinese civilization and over a long stretch of time, it has been the political and cultural pivot of South China, thus dubbed as the Capital of Ten Ancient Dynasties, rich in both cultural heritage and historical relics. Among the landmarks of Nanjing there are the City Wall, the Ming Xiaoling Mausoleum, Dr. Sun Yat-sen Mausoleum, Presidential Palace and Confucius Temple.

Confucius Temple

A creative city

Over the thousands of years of its development, Nanjing has never been want of creative innovations, ranging from Mr. Zu Chongzhi's (Jin Dynasty, 429-500 AD) modified calendar and calculated 7 decimals of the ratio of circumference Pi, the marvelous Great Gratitude Temple built in the Ming Dynasty, Laomendong (literally means the old east gate) historic and cultural district with distinct Nanjing characteristics, to the Creative Nanjing-New Generation Design Exhibition that engages the whole city. Nanjing has become a paradise for young entrepreneurs coming from different corners of the world with their aspirations. The 2500 years of cultural legend has contributed to the essence of this creative city.
